

# Vision and the environment.

Vision is manufactured to the highest technical and environmental standards. The product is made using Eucalyptus pulp by two of Europe's leading uncoated paper makers.

**Vision paper** weights ( 80 – 160gsm ) are manufactured in Sweden. The mill is ISO 9001, ISO 14001 and OHSAS 18001 certified and operates to EMAS standards.

The mill is fully integrated, manufacturing pulp and paper on site, therefore reducing energy consumption and carbon output. All **Vision paper** is **FSC certified**.

**Vision Boards** are manufactured in the UK. The paper mill is ISO9001, ISO14001, and FSC chain of custody certified. This UK based mill has a programme to decrease energy use and has recently signed a development agreement with a major energy company to build a £100M bio-mass power plant on its site. This will radically reduce carbon emissions from the manufacturing process and supply excess 'green' electricity to the National grid.

The whole **Vision** range is **FSC certified**.

A full copy of the Mill's environmental policies are available upon request.
