The Show-me *step-by-step* process for cleaning your whiteboards

Keeping your boards clean ensures that your ideas are well communicated and your writing is easy to read, even from across the room.

Ensure you always use the correct type of pen for your whiteboard. Avoid permanent markers and be wary of low quality brands that may have a scratchier tip, which could damage the board surface.

Step 1: Erase

1. Once the ink is dry (normally less than 30 seconds) and no longer needed, use your favourite drywipe eraser to remove the ink from the surface. Normally foam or felt.

Step 2: Clean

1. Spray the whiteboard cleaner directly onto your drywipe surface, one spray at a time
2. Wipe the surface clean with a soft absorbent tissue until the marks cannot be removed
3. Repeat the process above as required

Step 3: Renovate

1. Spray Show-me Magix onto the surface in small sections
2. Wipe the surface clean with a soft cloth to remove the stubborn stains and ink

Step 4: Condition

1. Lightly spray the entire surface with Show-me Magix
2. Leave to dry for 30 seconds
3. Wipe clean with a soft tissue

Step 1 Erase Drywipe Erasers

- ✓ **Mini Foam Erasers:** Ideal for small hands in the classroom, **easy-to-hold** and **lightweight** to avoid unwanted injuries
- ✓ **Wooden-handled Erasers:** Sustainable wooden handles with **ergonomic grip** for use by children and adults alike
- ✓ **Magnetic Erasers:** Designed for the **user's comfort**, can be stored easily on any magnetic whiteboard
