

Invercote® Duo

- Two sided coated laminated SBS board
- Manufactured by back-to-back pasting of triple coated Invercote G, giving identical printing surfaces front and back
- Both printing surfaces have the ability to faithfully reproduce the most sophisticated printing images
- A patented coating formula provides outstanding lightfastness, giving the end products a longer life
- Due to its strength, toughness and thickness, it is especially suitable for various display purposes and different types of rigid packs
- Invercote Duo is particularly recommended for packaging of aroma and flavour sensitive products
- The pasting glue is taint and odour neutral
