

# **SOPORSET**

## **PREMIUM OFFSET**

### Soporset Offset and the environment

Soporset Offset is a quality uncoated paper and board made to the highest environmental standards. The mill in Portugal take their responsibility for the environment very seriously.

Soporset is made by the world's largest integrated producer of uncoated papers using eucalyptus globulus pulp, with wood sourced mainly in Iberia. In addition, 68% of the mill's energy requirements are obtained from renewable sources. It is also produced in an ISO 9001 and ISO 14001 certified mill.

The paper is chlorine free.

For a full copy of the mill's full environmental report please contact your local sales office.
